FOR THE RAPID CURE OF Colds. Coughs, and Hoarseness. Brimfield, Mass., 20th Dec., 1855.

Brimfield, Mass., 20th Dec., 1855. 7

D. J. C. Ater: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your Cherry Pectoral. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MOKTLEY, Esc., of Utica, N. Y., writes; "I have need your Peterdal myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put ont. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

BROTHER AYER: I will choerfully certify your heteral is the best remedy we possess for the cure of whooping cough, croup, and the chest diseases of children. We of your fraternly in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, I.A., writes, 3d Jan., 1856; "I had a tedious Influeuza, which confined me in doors six weeks; took many medicines without relief; finally tried your Iretural by the advice of our dergy man. The first does relieved the soreness in my threat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best was a bay and we esteen you. Asthma or Phthisic, and Bronchitis.

West Manchester, Pa., Feb. 4, 1856.

Sir: Your Cherry Peteral is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has lakered under an affection of the lungs for the last forty years.

HENRY L. PARKS, Merchant. A. A. RAMSEY, M. D. Alanos, Morroe Co., Iowa, writes, Sept. 6, 1855; "During my practice of many years I have found nothing equal to your (herry lectoral for giving ease and relief to consumptive patients, or curing

Astor House, New York City, March 5, 1856,
Doctor Area, Lowelle I feel it a duty and a pleasure to inform you whist your Cherry Fectoral has done for my wife. She had been five mouths laboring under the dangerous symptoms of Consumption, from which no said we could present cave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill: for she has recovered from that day. She is not yet as strong as she used to be, but is free from low cough, and calls herself well.

# Ayer's Cathartic Pills.

THE selences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Immureable proofs are shown that these l'ills have virtues which suspass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, trating properties stimulate the vital activities of the body, remove the obstructions of its organs, parify the blood, and expel disease. They purg out the footh homors which breed and grow distemper, stimulate sluggish or disordered organismto their autural action, and impart beatthy tene with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and daugerous diseases that have beffled the best of human skill. While they preduce newerful the best of human skill. While they produce powerful effects, they are at the same time, in diminished doess, the safest and best physic that can be employed for children. Being augar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Games have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my

Of all the species of the Rose, this is the most beautiful as well as wonderful. I am not aware that it is grown by any individual, but myself, in the United States. I obtained it from Chiua—bence its name: "Celestial Rose." It blooms four times a year: once in each senson. In Spring, the huo of the flower is a change related; in Summer, Jehl Prediction and time and white wood. No. 15. In Autumn, varies and in Winter, white astractanges sow. This Rose, when in full bloom, is as large as the l'ine Apple, oval in shape, very compact, and remarkably oderiferous.

We call attention to the following, which we clip from the Toledo (O.) Blade, a stauneh Republican paper. It shows very clearly that the tendency of that party is to the social and political counlity of the whites and blacks:

"Most of the Republican members of the Senate have expressed themselves very decidely against the admisson of Oregon under its tyrannie and unrepublican provisions in regard to eitizen-It uncitizeuizes, not only negroes, but Chinaman, and takes another step in the direction of aristocracy, inaugurated by the Dred Scott decision The Declaration of Independence and the Revolutionary fathers started out with the Christian idea that all men are equal in regard to rights: but the influence of slavery is apidly converting the country into an oligarchy Of course, if black men have no rights which white men are bound to respect, men of red hair, r blue eyes, or small statute, or men born abroad, or Chinamen, may be in the same position. istocracy founded on color, or size, or birthplace is just as unrepublican at an aristocraev founded on family or military services."

More British Outrages-Brig Mianus Detained by the Styx-Boarded and Overhauled-High Words.

Capt. Purkis, of the brig Mianus, arrived yesterday morning, from Black River (Jamacia), reports that on May 20, in lat. 24.19, lon. 82, the British war teamer St.x, was directly ahead of the Mianus, and when abreast of her, the Styx lowered a boat and fired a gun for the brig to heave to-it blowing fre-h at the time, and the brig having studding sales set, the latter was unable for some time to comply, when the sound of another gun came booming over the water. This was shotted, for the effect of its motion over the surface of the water could be seen distinctly from the bows of the Mianus. The captain fearing he might receive a plumper, got his vessel around a oon as possible, and was soon boarded. The officer in command appeared much vexed because the brig was so long heaving to, and was very imerious in his commands. The men on board the Mianus were disposed to laugh at the pompous speech and manner of the boarding officer, which excited the blue-jacket wonderfully, and he de-manded of the captain of the brig if he knew who and what he was? The Yankee replied that he didn't care a d-d who or what he was, but if I had a bigger ship and properly armed you should know who and what I was. Some few remarks followed, when the officer was informed where the ressel was from, where she belonged, what was her cargo, what her destination, etc., and after having detained the brig over an hour, allowed her to proceed on her passage .- N. ITDr. S. V. HUNTER, of Kentucky, his been The Overflow of the Lower Mississippi A gentleman writing from Washington county,

Mississippi, to the Memphis Enquirer says: I will give you a small idea of the water in this section of country. The break at Shirt-Tail-Bend has done immense damage to the planters. The water has drowned out from the bend, by back water, the plantations for fifty or sixty miles below Lake Washington, and the land is going un-der deeper every day; nothing will save the coun-try but a sudden fall in the river. The river here at this time is about a foot lower than the fifst rise we had; this is some six or eight inches higher than 1844. The cut-off in Shirt-tail-Bend gives us more water here than it would otherwise by nearly two feet. The river appears to be at about a stand here at present.

The crops, that is what are out of water, look bad, especially cotton and corn; everybody is low spirited and all are anxious for a speedy fall of the river. I could give you the names of the planters under water but they are too numerous to name. The breaks in Bolivar county are few, and little or no damage has been done; the breaks have been mostly mended. The levees are not safe yet, as the crawfish have gone to work and are doing a great deal of damage to them; they can-not stand the water much longer, as they are fast getting rotten, and the water has been against them for so long a time. We cannot yet say what the damage will amount to or what the water will vet do, but all are anxious to know their doom .-It is now too late to plant cotton before the water can possibly fall.

A letter to the New Orleans Picayune, dated Lafourche, May 28, mentious another crevasse:

We are again affoat; there is a new crevasse on the Hebert place; it occured on Wednesday, 26th. The water is spreading rapidly, and it is feared that it will not be arrested, as the planters have become dispirited, not having had a respite of a week, and their affairs at home suffering. Mr. P. L Cox and Mr. Wm. Littlejohn are at this moment the "nabobs" who are most at sea.— Should the crevase not be stopped, they will

all. Some of my neighbors are now wading about in their gardens fishing for onious.

The New Orleans Picayune of the 30th says: The river at this point has for a week past been bout on a stand, and the crevasses on the side pposite to the city have long since been looked on as established institutions, and, having done all the lamage they could, are allowed quitely to fulfill their destiny by filling up the swamps in their ricinity, thereby extending the breadth of cultiable land on the plantations in their neighbor-There is now no probability of their being ood. closed till the river settles down into its ordinary channel.

The Memphis Bulletin says:

At Hopefield, on the opposite side of the river, the water appears to be higher than it was at any time this season. The town itself is not over-flowed and will not be unless the water comes up much higher than is at present anticipated. large district of country back of Hopelield, however, is completely submerged by the water comfrom the break in the levee near Barton's anding, some four or five miles above this city. The water from the main channel of the river not yet reached the Arkansas State levce, and, from all appearances, will not reach it.— There is considerable back water from the break in the levee at Duke's plantation some miles be-low this city. There is no current in the water ow covering the Little Rock railroad track, and no damage can possibly be done to the road bed y the overflow, except what results from the emporary suspension of the work on the road.

The telegraph reports the Mississippi falling at t. Louis. The Illinois was out of its banks. The own of Naples was partly submerged, the levce having given way, and admitted a rush of water from the Illinois. The whole country was inundated. stock was drowned, farms covered, and the Inhabitants fleeing for safety. A similar state of affairs existed on the Upper Mississippi. A letter from Hannibal to the See Louis Democrat says:

The water is nearly over the levce here. Perons living in the bottom across the river in Illi nois are moving in a hurry. A large quantity of tock has been drowned in the last two or three days. Our ferry is running night and day, remov-ing their stock. 'Times are awful dull; no proluce coming in from the country. Our merchants have commenced moving everything out of their cellars on the levec. River rising fast at this time.

Chief of True Delta Billy's brother -good man-great general-Billy drink whisky with True Delta!"

The True Delta proceeds:

With the spirited peroration of his address, the chief dismounted from his elevation. At this uncture Col. Turner, who is quite an intelligent oung man, as well of some natural wit and vivaity, fearing that he would not be able to deliver the chief back to the agent in "good order and condition," as per bill of lading, aptly remarked, "Billy you'll get drunk," to which the illustrious Floridian promptly retorted, "you get drunk fust -ugh!" In a few minutes the two gallons of punch had marvellously disappeared before the attacks of the crowd, and with it ended the interesting interview. The escort of the great Semiled him to his carriage, and after he was comfortably bestowed therein with his favorite rifle, he saluted the admiring crowd with a small

rehearsal of his war-whoop.

From the office he was driven to the wax-works in Vannuchi's Museum, which entertained him highly. He recognized the east of General Tayor, said he was a great chief, but that he "lieked him before." He asked for that "blessed of Mrs. Cummingham, saving it was like "Willy," a favorite child of his, named after him-He was shown the figure of General Jackson, and he said that he was a little boy when the General took Florida from the Spaniards; that he was a great man, but dead now, and he (Billy) had taken his place. He wanted to know what tribe Judas Iscariot belonged to, and show edstrong marks of incredulty when told by Col. Furner that Judas was a Choetaw. Couldn't sell Billy on that. Some one asked him if he knew General Harney. "Yes," said he, "Billy makes him run like hell!" A remark which betrayed the

demoralizing influence of civilization. # THE CELESTIAL ROSE.

OF all the species of the Rose, this is the most beautiful as well as wenderful. I am not aware that it is grown by any individual, but myself, in the United States. I obtained it from China—hence its name: "Celestial Rose." It blooms four times a year: once in each season. In Spring, the hue of the flower is a CHANGABLE FURPLE; in Summer, DEER RED; in Autumn, VARIEGATED BY ALL THE FRIMARY COLORS; and in Winter, WHITE AS THE FALLING SNOW. This Rose, when in full bloom, is as large as the Pine Apple, oval in shape, very compact, and remarkably odoriferous.

I will send by letter, ten seeds of this singular and magnificent Rose, to any one enclosing me \$10; or five seeds will be sent for \$5. No smaller number will be sold. The seeds may be planted any month in the year. Full particulars will be given as to soil and culture.

To those who possess a taste for rare collections of

To those who possess a taste for rare conceitons or flowers and evergreens, and who manifest an interest in adorning and beautifying their homes, this advertisement will prove a welcome medium. No collection, be it ever so extensive, can be complete without the "Celestial Rose." It has been truly styled by the Orientals, "The Queen of Roses."

In In ordering seeds, write your name, Post-office, county and State, in a plain, legible hand. Address me at Waynesburg, Green county, Pennsylvania.

The recent attempt made at Buffalo by a few leading Know Nothings to unite themselves with the "Republican" party and take leading positions therein, has proved the most decided failure and complete fizzle of any undertaking within a score of years. The desire of the "Americans" to mingle again, equally and promiscuously, with their oft discarded and denounced former Whig friends, has been almost universally rejected by the "Republicans" all over the State, and very generally in Buffalo, where the union movement originated. To give eclat and high sounding to it, meeting was held in that city on Thursday eve-

g last. The Courier says: The men who thus assumed the herculean tash of deposing the present Administration, were Ben-jamin Welch, Jr., a renegade Democrat, who once tasted the sweets of office, but since the deteat of Fremont has subsided into private life; S. G. Haven. ex-member of Congress, and a Know Nothing; E. G. Spaulding, a Choctaw Know Nothing and "Republican;" G. A. Sproggs, a Know Nothing of Whig antecedents and a bitter enemy of the Woolly Heads; P. Dorsheimer, a recreant Democrat, who, like Micawber, has long been waiting for "something to turn up," and who formerly used to boast of having a considerable number of German votes in his breeches pocket; E. R. Jewett, a Fillmore man of the straightest seet; and Albert Sawin, Ex District Attorney, a Whig of the old schools, and gentleman who has held both Know Nothings and "Republicans" in such low esteem that he has for several years main tained a small and pure political party at his own

Such are the broken and decayed politicians who have undertaken to take the lead in re-organizing the old Whig party in this State. They are conscious that standing alone as Know Nothings or "Americans," they count only a small faction in this State, and that they are growing "beautifully less" every day. From the proceedoings of the meeting, it is apparent that the only purpose was to exhume James O. Putnam from his political tomb. He made a prepared speech, the only speech of the evening. Now, this man Putnam has not been seen nor heard of since his departure from the Senate of this State, some three years since. Then he stood alongside of Brooks and other leading Know Nothings, and manifested more bitterness and exhibited more proscription against our naturalized population, than any other man in or out of the Legislature. His lamentations at Buffalo at the meeting last week, were all on account of the miseries and afflictions of the people of Kansas—afflictions placed upon them by Congress and the Administration, for having admitted that Territory into the Union as a State upon the same terms as all the other States have been, if the people shall so

declare.
The "Republican" presses and leaders were wise and sagacious in refusing to help construct this new Buffalo platform. The sequel shows this too plainly to admit of doubt. They have their own candidate for the Presidency two years hence The "Republican" party was organized solely and purposely to make Seward their candidate, after the first faint rally for Fremont, And now, when the Hales, the Chases, the Banks, and the Gidbings, are voluntarily off the course, it would be the highest of folly, aye, perfect madness, to enter into a combination with a set of men who are more decidedly opposed to Seward than they would be to old Beelzebub himself. Mr. Putnam's speech plainly indicates who the Know Nothing candidate is intended to be. He thus disrobed his thoughts, disclosed the purpose of the leaders, and undoubtedly spoke the sentiments of that meeting. He said:

'You have my views. I would see an organiza tion upon a busis broad enough to receive all the opposition to the present Demogratic policy. want no "pent up Utiea," with walls so high as to exclude John J. Crittenden, John Bell, Humphrey Marsuall, Henry Winter Davis, and tens of thou-eands of noble spirits scattered all over the South who love this Union as well as you and I do, who ask nothing for slavery but its constitutional rights, and who, with all the force of their intellect and position have resisted the great iniquity of the Administration. I ask you, my friends, it while you are garlanding a Seward and a Douglas with the leurel wreath, if of the greenest and Mr. C fairest, you would not dook the brow of the gal-

Lant Kentu sky Sen tor."

Ye 'Republicans," "while you are garlanding Seward and Douglas," why would you not deek the brow of the gallant Kentucky Senator with the greenest and fairest laurel wreath? This is the gist of the whole matter. By this Buffalo moveleading Know Nothing is Congress, and also in I stend to lead a different life in future.' No. 110, Mr. Putnam, the Weeds, the Greeleys, the Raymonds will never consent to occupy your platform. They believe that the "Republican" party was made for Mr. Seward. They believe that the "greenest and fairest laurel wreath" should be placed upon his trow; and rather than Crittenden should wear it, they will play false with him, as they frequently did with Henry Clay and Daniel Webster.—New York News.

### A Women of Genuine Courage.

The Georgetown (Ky.) Journal relates the following instauce of unusual courage and presence of mind in a lady of that vicinity. It occurred on the 24th ult:

Mrs. Wilson and her little son, aged about six years accompained by Miss Calvert, were return-ing home in a buggy, and when opposite Mrs. Fleming's, above Herriot's mill, in this county, their horse took fright at a scone protruding from the middle of the road, where some earth had been thrown up for the purpose of making a pond, and commenced backing in the direction of the and commenced backing in the direction of the ereck, which was approached by a steep precipice. Mrs. Wilson discovering the imminent peril of herself, child and friend, leaped out over the wheels of the buggy, which were nearly locked, and caught the horse by the ring of the bit, thinking she could get him along by talking to him.—This proving ineffectual, she endeavored to turn the horse's head for the purpose of guiding the buggy against a tree which intervened, but he could not be turned either way, and continued backing. At this juncture, Miss Calvert perceiving her danger and that of the child, and becoming alarmed, leaped from the buggy, and attempt. ing slarmed, leaped from the buggy, and attempted, we suppose, to seize the child, but only succeeded in clutching his hat. The horse and buggy by this time had reached the precipice, down wh they were precipitated, together with the child, closely followed by Mrs. Wilson, who sprang into the water after the horse and buggy, and as her child came up to the surface from the buggy which had fortunately turned over toward the shore, she caught him in her arms and brought him ashore, where she di-covered Miss Calvert standing in her original position, perfectly para-lyzed and unable to move, still holding in her hand the little boy's hat. It was most fortunate that, in falling, the horse broke his neek, and when he reached the water was perfectly dead .--Had he been living, and commenced plunging the moment he reached the water, it is more than probable the little boy would have been lost. t was, all escaped unharmed except Mrs. W. who had one of her arms slightly bruised

### Fure Milk.

They are just now having a lively time in New York about abating the "Swill-milk" nuisance.— A correspondent of the Journal of Commerce tells the following, to show that Gothamites cannot appreciate pure milk when they get it; in fact, prefer the adulterated:

The 'present discussion going on in regard to milk remiuds me of an anecdote refated to me by friend Taylor, of Green's farm, Connecticut, which goes to prove that New Yorkers have been so imposed upon and so long accustomed to poor milk that they really do not know what good one of his neighbors skimming and watering his milk before sending it to market. He said his friend was an honest man, and he did not blame him. I expressed surprise, when he told me that his neighbor had once made a contract with a ho-tel in New York to deliver a certain quantity of "pure" milk daily, and, being an houest man and desirous of giving satisfaction, he delivered milk of the best quality for about a fortnight, when, calling one day to receive his pay, the landlord in formed him that he did not wish to receive any more of his milk. The farmer expressed sur-prise, and wished to know if the price was too The landlord told him no, but that his milk was of too poor a quality, and intimated that it had been adulterated; for said he, there is a nasty dirty, yellow scum on the top of it every mornin ien we wish to use it. In vain the farmer explained to him that this was the eream, and was an evidence of the good quality of the milk.—

The hotel-keeper told him he need not try to put any of his Yankee tricks upon him, and ordered man, of Wayne. him out of the house. Since then farmer has skimmed and watered his milk, to please the New Yorkers, as he says.

TO THE DEMOCRATIC CENTRAL COMMITTEES, FOR THE RESPEC-TIVE CONGRESSIONAL DISTRICTS.

GENTLEMEN:

The undersigned, Democratic State Central Committee of Kentucky, beg leave to call your attention to the subjoined plan of organization of the party for the present campaign, which was adopted at the Democratic State Convention in this city on the 8th of January last.

It is time that an efficient organization of our party throughout the State was being made. The contest this year, is an important one, and our success at August will tend very greatly to perpetuate the ascendancy of Democracy in Kentucky .-It is needless, however, to urge upon Democrats the importance of being fully organized and prepared for the contest. You all know and appreciate the importance of immediate and prompt action in the premises. Permit us however, to say, that as yet, we have received no report from any member, of any of our Congressional Committes. We hope to hear from you as soon as possible.

STOMACH OR LIVER.

SUCH as Indigestion, Acidity of the Stomech, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous and Rheumatic, and Neuralgie affections, it has in numerous instances prived highly beneficial, and in others affected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Bærhave. Because of its great success in nost of the European States, its introduction in the U.S. was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and in fact, infusing new health and vigor in the system. Notice—Wheever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a grateful aromatic cordial possessed of singular remedial properties.

CAUTION. The great popularity of this celebrated Aroma has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything until you have given Boerhave's Holland Bitters a fair trial. One bottle will convince you how infinitely superior it is to all these imitations.

Pain in the pit of stomach, or towards the right side, Sallowness of complexion, Depression of spirits and irritability of temper, etc., have, in many cases, defied the skill, heretofore, of the best medical practitioners in the world, and many cases have been abandoned as incurable.

Dr. J. Williams, Chemist and Pharmaccutist, after studying closely the practice of Drs. Abornothy and J. Johnston, England, and observing the nature of the disease in all its stages, during a sojourn in the sonthern and western portions of the United States, where it prevails to a greater extent than elsewhere, procured from South America, certain roots and herbs, from which he prepared an "Elixir," which after fifteen yours use in private practice, has proved tself more efficacious in the cure of Dyspepsy, than any medicine that has ever been prepared in any age or any clime, for the same purpose.

tself more cilicacious in the cure of Dyspersy, than any medicine that has ever been prepared in any age or any clime, for the same purpose.

Having submitted it, with an explanation of its components, to a number of physicians of Philadelphia, among whom were the late Drs. Joseph Hartshorne and J. C. Morton, it has received their entire upproval, and many of the Medical Faculty are now not only prescribing it tor their patients, but are using it personally, and in their families. As a tonic it is unequalled, and its properties are of so invigorating a nature, that it is given with perfect safety and success to the most tender infants.

The "Elixir" is very gradual, but certain in its action upon the organs of digestion, the increased secretions of the liver, pancreas and mucous membrane of the stomach, and requires that only one dose be taken in twenty-four hours; for confirmed Dyspepsy can only be cured by GRADUALLY restoring the organs of digestion to a healthy state. The great success met with in curing the most aggravated cases of Dyspepsy, accompanied sometimes with a high grade of hypochondriasis, has ostablished the most unbounded confidence in the eurative properties of this "Elixir," in corroboration of which, read the following testimonials:—

confidence in the curative properties of this "Elixir," in corroboration of which, read the following testimonials:—

ATTESTATION.—We, having used Williams," Anti-Dyspeptic Elixir," with the most perfect satisfaction and success, take great pleasure in recommending it to all persons suffering with Dyspeps, as we are fully convinced of its most esmitable qualities in restoring the digestive powers, removing all pains and uncasiness, and imparting a healthy tone to the stomach:—John B. Penrose, 34 South Wharves; Casper Morris Tacony; Thomas Allibone, President of Bank of Pennsylvania; Abner Elmes, Market street, above Sixth; Edward H. Rowley, No. 14 North Wharves; Michael Dunn, Superintendent Merchante 'Exchanges: Hannah Styles, Frankford road; Ilannah Webb, 25 Filbert street; H. N. The list of names could be extended to almost any length, but the foregoing is deemed sufficient.

Testimony of H. N. Sperry, who was abandoned as INCURABLE AND GIVEN UP TO DIE.

Dr. J. WILLIAMS—Dear Sir.—For fifteen years previous to 1854, I suffered so much from Dyspepsy; that I hecame completely prostrated, both in mind and body, and at length became so weakened, I could not attend to my business, and was sinking into a decline, and it was believed I never could recover; the best medical aid was procured for me and every means resorted to without any relief, till I was advised to use your "Elixir," and from the time I began taking it, I gradually improved till I, was completely restored to health. The dreadful sufferings I endured from Dyspepsy I eannot describe; but I am confident that without the use of your "Elixir," I should be in my grave. I assert that I solemely believe your "Elixir" has saved me from an early death. I continue now in the enjoyment of most excellent health. H. N. SPERRY.

BRAGG'S ARCTIC LINIMENT TILIS incomparable Linlment, upon which the great mass of the afflicted of all lands now rely for reflet from the pangs of Rheumatiam, Neuralgea, Gout, Erysipelas, Cancer, Serofula, Sprains, Bruises, Bruns, Scalds, and all cutaneous diseases, is rapidly superseding all similar preparations. The preprietors give for the encouragement of sufferers, the following memorandum of a few of the wonderful enres effected by it during the past few months. Certificates from the parties named are in the possession of the proprietors, but their length precludes the publication of all but a few.

One Bottle Triumphant. Mrs. Mofitt, No. 345 Morgan Street, St. Louis, having suffered for three years with Rheumatism, and tried many preparations without effect, was cured by one fifty cent hottleof Arctic Liniment,
Out of Purgantery.

Henry Davis, Mound street, St. Louis, who says he

was "suffering the pangs of purgatory" with neural-gia, for months, was cured by three or four applica-tions of the Arctic Liniment. Pity the Little Children. A little daughter of Mrs. Lee, residing on Lake street, Chicago, was sealded all over by the nesetting of a kettle of boiling water. The Arctic Lisiment was applied according to the directions, and the fre was instantly extracted, and in a few days the little sufferer was well.

Swell.

Restored to Heauty.

Peler Canal Street, N. O., had long Mrs. George K. Tyler, Canal Street, N. O., had long suffered from a painful and disfiguring eruption on the face, and by the use of one bottle of the Liniment was cured, and restored to her original beauty.

A Horrible Tumor.

Eugene Mallory, Natchez, was three years the vietim of a horrible tumor en the neck, which resisted all remedies until he tried the Arctic Liniment. Three bottlesenred him in a few weeks.

Woulderful Cure!

Mrs. Bedford, Mobile, was confined to her couch for three jears with numb palss, and after being in despair from the failure of all other remedies, was cured by the Arctic Liniment, in a little over a month. An Explosion.

Am Explosion.

MEXPLIS, Tenn., Nov. 29, 1857.

I hereby certify, that having been badly braised and scalled by the explosion of a vicem Boiler, a friend induced me to try Bragg's arctic Limment. The smart was instantly extracted from the scalds, and in a very short time, all the pain was gone from the bruises. In two weeks I was well, and able to re-

Some of these scenes develope a refinement of ernelty and a systematic torture that cannot tail to send a chill of horror through every civilized commantity. This is the dark side of the picture, "A Life on the Decan" has its subshine as well as its storms—its pleasures as well as its pains—and the nuther has most happy hand foreibly presented these various plasses of life on the great deep, in the progress of the "Gean Wanderen."

The descriptions of the manners and customs of the Natives of the "far-off libes of the Sen," among whom the author passed u portion of his eventful life, are full of interest. He carries the reader thro'the delightful groves where the hanam and decomming grow—and anon takes him far away into the softary. the delightful groves where the hamana and cocoming grow—and amon takes him far away into the softlary forests of Tropical fruit, which are only to be found in the keles of that clime "where summer reigns; eternal"—passing in raped succession before big mental vision a pan rann of the most gorg outspicture in the world. Amid this delightful seenery, after this paper of ever gazing on the glorious stripes of his native land, or seeing the friends of his childhood again the author makes a discovery of the most startling a ranger which changes the whole current of his ndividual times of a careful and the many the unitives.

There is a reckless daring in the life of the sailor which is smac countable. He pursues his periture try. It is this spirit which carries our commerce to the grown with the sails of the merebunture, and unfolds

How may gillant ships have left our ports, never to be heard of again—leaving those who had triends on board to watch long and anxious for tidings of the missing vessel, while she was perhaps rent into a thousand pieces by the hurrieane. Gypboon, or some treacherous reef, far out in the sca—and her passengers and erew engulph 6 in the ocean deaths! While fond hearts were living in the earnest, yet vain hope that absent friends would return home again, perhaps their bones were bleaching in the waters of the great deep! In these terrible disasters some are spared from sudden death to undergo the horrors of starvation and deliginum on the fragments of the wreck, while others are cust on some burren und inhospitable island, to end their days among savages or in a terrible solitude where no human fool had ever trod, and where no human woice was ever heard! The anthor of the "HERN WAXNERER," vividly brings before his reader some of these startling alventures and terrible realities.

CLEANSE THE BLOOD AND CURE THE SICK Invalids, Fathers, Motners, Physicians, Philanthronists, read their Effects, and Judge of their Virtues. FCE THE CURE OF Headache, Sick Headache, Foul Stomach.

PITTSBUEN, PA. May I, 1865.

DR. J. C. AYER. Sir: I have been repeatedly circed of the worst headache any body can have by a dose or two of your Fills. It seems to arise from a foul stomaca, which they cleause at once. If they will cure others a they do me, the fact is worth knowing.

Yours with great respect. ED. W. PREBLE, Clerk of Steumer Clarion.

Biltous Disorders and Liver Complaints. Biltous Disorders and Liver Complaints.

Department of the Interior, Washington, D. C., 7 Feb., 1879.

Err: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldon found a case of bilious disease to detinate that it did not readily yield to them.

Fraternally yours,

Physician of the Murine Hospital,

Discourters, Relay, and Worms.

Dysentery, Relax, and Worms.

Post Office, Hartash, Inc. Co., Mich., Nov. 16, 1855.
Dr. Ater: Your Pills are the perfection of medicine. They have done my wife mere good than I can tell you. She had been sick and pining away for neaths. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her expense, but got no better. She then commenced taking your Pills, which soon cured her soon cured we of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while ethers around us paid from five to twenty dollars doctry bills, and lost much time, without being cared entirely even then. Such a medicine as yours, which is actually good and konest, will be prized here.

Dr. Aver: Your Pills are the paragon of all that is great in medicine. They have cared my little daughter of ulcerous sores upon her hands and feet that had proved incornble for years. Her mother had been long grievously affilted with blatches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

HONORED SIR: I should be ungrateful for the relief your
skill has brought me if I did not report my case to yon.

A cold settled in my limbs and brought on excruciating
neuralgic pains, which ended in chronic rheumatism.

Notwithstanding I had the best of physicians, the disease
grew worse and worse, until, by the advice of your excellent agent. In Baltimore, Dr. Mackensie, I tried your Pills.

Their effects were slow, but sure. By persevering in the
use of them, I am now entirely well.

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmenary complaints have made it already known. Nay, few are the families in any civilized country out his continent without some personal experience of its effects; and fewary et the communities any where which have not among them some living frophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formatable and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formatable and dangerous diseases of the pulmenary organs, it is also the pleasannest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steal upon them unprepared. We have abundant grounds to believe the Cherry Tectoral saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor ung leet them multi no human skill can master the incaorable canker that, fastened on the virals, cats your life away All know the dr-adhit fatality of lung disorders, and as they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford these who rely out it the best agent which our skill can furnish for their cure.
